## feminine hygiene

### NOTE FOR EMPLOYERS: Legislation

Did you know that you are legally obliged to provide a means of disposal for sanitary dressings\*, even if only one woman uses the facility? Waste then has to be disposed of correctly; by a licensed waste carrier and in accordance with the Law\*\* or you could be punished by a fine upwards of £2,500. You must also keep an auditable record of these disposals for over two years.

### Foot Pedal Operated Intima Feminine Hygiene Unit

#### Specifications

23 litre capacity

Pedal operated

(H) 550 x (D) 510

100mm(H) x  
500mm(L)

100 - 240V 13+  
watts (via 13A  
switched fused  
spur)

1.5kg

The Air Steril Washroom units utilise a unique combination of 5 technologies. They eliminate unpleasant Washroom Odours and control harmful Bacteria and Viruses both in the air and on all exposed surfaces 24 hours a day, 365 days a year. With a coverage of up to 30m2, the 13w low energy units provide constant clean, fresh sanitised Washroom air. With no filters to change, and minimal maintenance, they provide a green solution that improves the Washroom hygiene and environment for all users.

- Protect staff, visitors and other users
- Clear embarrassing odours
- Eliminate bacteria in the air and on surfaces
- Reduce chemical usage
- Reduce the need for deodorants and perfumes
- Improve the image of your organisation

\*Based on average UK water cost of £1.14 per m3

\*\*This can be reduced further when setting up Sensaflush® unit

## The electronic Quadrasan Urinal Sanitiser System

### Specifications

Fully automatic

Fully programmable

Enzyme based sanitising fluid

Environmentally friendly

- Prevents build up of hard water and uric scale
- Assists reduction in general washroom malodours
- Fully automatic - battery operated
- Fully programmable to ensure maximum effectiveness
- The unit releases measured amounts of Biosolve™ sanitising fluid which, via a foaming action, ensures full coverage of the pan or cistern
- Enzyme based; meaning it attacks the cause of the problem rather than trying to mask it
- Sanitising fluid is a high performance, environmentally friendly, biodegradable solution produced from natural materials. It is non-irritant, non-hazardous, non-corrosive and non-flammable
- Installed and serviced 4-weekly to ensure continuous protection
- Available in Classic White or Chrome
